Introduction and Background

This bulletin presents statistics on vacancies actively being recruited in Health and Social Care (HSC) in Northern Ireland as at 30 June 2026. Statistics by staff group and HSC organisation are presented throughout.

All data used in this bulletin have been gathered from Recruitment Shared Services in the Business Services Organisation (BSO), HSC Trusts and regional HSC organisations. To ensure that the Department's information is accurate, high data quality standards need to be achieved and maintained by all HSC organisations.

The data presented in this bulletin is a measure of active recruitment to both permanent and temporary positions. Users should note that the figures do not indicate a measure of posts that are unfilled by permanent or fixed-term staff. Due to fluctuations in the data, caution should be taken when considering point-in-time comparisons.

The data accompanying this bulletin are available of the [Department of Health](#) website.

Key Points

- At 30 June 2026, there were 6,517 vacancies actively being recruited across Health and Social Care (HSC) in Northern Ireland, equating to a vacancy rate of 7.5%.
- The total number of vacancies under active recruitment at 30 June 2026 (6,517) is 6.9% higher than at 30 June 2025 (6,095) but 11.3% lower than at 30 June 2021 (7,348).
- The highest number of vacancies actively being recruited across HSC was in the Nursing & Midwifery occupational family, with 2,005. This staff group made up 30.8% of all HSC vacancies in recruitment.
- The Nursing & Midwifery Support staff group had the highest vacancy rate, at 13.3% (745 vacancies).
- Of the five regional HSC Trusts, the Belfast HSC Trust had the highest number of vacancies actively being recruited (1,914 vacancies).
- The annual percentage change in vacancies was greatest in the Western HSC Trust with an increase of 21.2%, followed by Southern (12.0%), Northern (9.1%) and Belfast (7.6%). The South Eastern HSC Trust reported a decrease of 7.6%.

Active Recruitment Vacancy definition: A vacancy is any position that is currently with the recruitment team and being actively recruited to. This will include those going through pre-employment checks, up to the point of a start date being agreed. Once a start date has been agreed with both parties (i.e. manager and applicant) this will no longer be classed as a vacancy. Vacancies that are on hold by managers are not included.

$$\text{Active Recruitment Vacancy Rate} = \frac{\text{Vacancies actively being recruited}}{\text{Active staff in posts*} + \text{vacancies actively being recruited}}$$

* Includes HSC domiciliary care active staff in posts. This will not match with active staff in post figures published in the HSC Quarterly Workforce Statistics bulletin which excludes domiciliary care active staff in posts.

Overall Vacancies

At 30 June 2026, there were 6,517 vacancies actively being recruited across Health and Social Care (HSC) in Northern Ireland. This equated to a vacancy rate of 7.5%.

The total number of vacancies under active recruitment at 30 June 2026 is 6.9% higher than at 30 June 2025 (6,095) but 11.3% lower than at 30 June 2021 (7,348).

Figure 1: HSCNI Vacancies Actively Being Recruited, 30 June 2021 – 30 June 2026

Staff Group

Latest Position (30 June 2026)

Figure 2 below shows the proportion of vacancies actively being recruited at 30 June 2026 for each staff group. Of the 6,517 vacancies actively being recruited at 30 June 2026, the Nursing & Midwifery occupational family made up the highest proportion, at 30.8% (2,005 vacancies). This comprised 1,260 Registered Nursing & Midwifery vacancies and 745 Nursing & Midwifery Support vacancies. The second highest proportion of vacancies was in the Social Services staff group, at 23.4% (1,523 vacancies), of which 318 were Social Worker vacancies and 1,205 were Social Care vacancies. This was followed by the Professional & Technical staff group (15.9%, 1,034 vacancies) and the Administration & Clerical staff group (14.1%, 921 vacancies).

The Medical & Dental staff group made up 6.6% (431 vacancies) of all HSC vacancies actively being recruited at 30 June 2026. Almost half (46.4%) of these vacancies were at consultant grade (200 vacancies).

Figure 2: HSCNI Vacancies Actively Being Recruited, by Staff Group at 30 June 2026

Table 1 below presents the number and proportion of vacancies actively being recruited in some sub staff groups and professions at 30 June 2026.

Table 1: HSCNI Vacancies Actively Being Recruited by Sub Staff Group / Profession, 30 June 2026

Sub Staff Group / Profession	Number of vacancies	Percentage of all HSC vacancies
Allied Health Professionals *	429	6.6%
Consultants	200	3.1%
Nursing & Midwifery Support	745	11.4%
Registered Midwives	73	1.1%
Registered Nurses	1,187	18.2%
SAS Doctors (Specialist or Specialty Doctor)	59	0.9%
Social Care (including domiciliary care)	1,205	18.5%
Social Workers	318	4.9%

* Includes physiotherapists, occupational therapists, speech & language therapists, podiatrists, dietitians, orthoptists, radiographers (who are all part of the Professional & Technical staff group in Figure 2), and paramedics (who are part of the Ambulance group in Figure 2).

Of the sub staff groups and professions listed in Table 1, Social Care vacancies comprised the largest proportion of all HSCNI vacancies actively being recruited at 30 June 2026 (18.5%, 1,205 vacancies), followed by Registered Nurses (18.2%, 1,187 vacancies), and Nursing & Midwifery Support (11.4%, 745 vacancies).

Comparison Over Time

Figure 3 below shows the number of vacancies actively being recruited at 30 June over the last five years, in each staff group.

With the exception of Estates Services and Generic staff groups, all other main staff groups reported an increase in the number of vacancies in the last year. Since 30 June 2025, the largest increase in the number of vacancies was in the Professional & Technical staff group, which reported 150 (17.0%) more vacancies. The Nursing & Midwifery Support and Social Services staff groups also reported large increases in the number of vacancies since 30 June 2025, with 102 (15.9%) and 100 (7.0%) more vacancies respectively.

In the last five years, all main staff groups with the exception of Administration & Clerical, Ambulance, Professional & Technical and Registered Nursing & Midwifery staff groups, reported an increase in the number of vacancies. Since 30 June 2021, the largest increase in the number of vacancies actively being recruited was in the Nursing & Midwifery Support staff group, with 246 more vacancies (49.3%), followed by Medical & Dental (168 vacancies, 63.9%), Social Services (141 vacancies, 10.2%) and Support Services (101 vacancies, 30.3%). The Registered Nursing & Midwifery staff group reported the largest decrease in vacancies actively being recruited, with 1,105 fewer vacancies (46.7%).

Figure 3: HSCNI Vacancies Actively Being Recruited, by Staff Group^{#Ω§}, 30 June 2021 – 30 June 2026

[#] Excludes vacancies coded as generic roles.

^Ω Increase in vacancies for Ambulance staff group may relate to paramedics and new posts created for graduates from the BSc Paramedic programme.

[§] Due to a low level of Nursing & Midwifery Support vacancies in recruitment in June 2021, possibly as a result of nursing & midwifery students being temporarily placed in support roles during the Covid-19 pandemic, this has resulted in a large five-year increase when comparing to 2026.

Table 2 below presents the change in vacancies actively being recruited in some sub staff groups and professions in the last year and the last five years.

Table 2: HSCNI Vacancies Actively Being Recruited by Sub Staff Group / Profession, 30 June 2021 – 30 June 2026

Sub Staff Group / Profession	% Change 2021-26		% Change 2025-26	
	Number	Percentage	Number	Percentage
Allied Health Professionals *	-177	-29.2%	50	13.2%
Consultants	67	50.4%	28	16.3%
Nursing & Midwifery Support	246	49.3%	102	15.9%
Registered Midwives	-65	-47.1%	2	2.8%
Registered Nurses	-1,040	-46.7%	7	0.6%
SAS Doctors (Specialist or Specialty Doctor)	7	13.5%	-21	-26.3%
Social Care (including domiciliary care)	240	24.9%	115	10.6%
Social Workers	-99	-23.7%	-15	-4.5%

* Includes physiotherapists, occupational therapists, speech & language therapists, podiatrists, dietitians, orthoptists, radiographers (who are all part of the Professional & Technical staff group in Figure 3), and paramedics (who are part of the Ambulance group in Figure 3).

Of the sub staff groups and professions listed in Table 2 above, the Consultant staff group reported the largest percentage increase in vacancies actively being recruited since 30 June 2025 (16.3%, 28 vacancies), followed by Nursing & Midwifery Support (15.9%, 102 vacancies) and Allied Health Professionals (13.2%, 50 vacancies). SAS Doctors reported the largest percentage decrease (26.3%, 21 vacancies) in vacancies actively being recruited between 30 June 2025 and 30 June 2026, followed by Social Workers (4.5%, 15 vacancies).

During the last five years, Consultants reported the largest percentage increase in vacancies actively being recruited (50.4%, 67 vacancies), followed by Nursing & Midwifery Support (49.3%, 246 vacancies). The Registered Midwifery staff group reported the largest percentage decrease (47.1%, 65 vacancies) in vacancies actively being recruited between 30 June 2021 and 30 June 2026, followed by Registered Nurses (46.7%, 1,040 vacancies).

Vacancy Rate

Figure 4 below shows the vacancy rates at 30 June 2026 in each staff group. The Nursing & Midwifery Support staff group had the highest vacancy rate, at 13.3%, while the Ambulance staff group had the lowest vacancy rate (1.8%).

Figure 4: HSCNI Vacancy Rate, by Staff Group[#] at 30 June 2026

[#] Excludes vacancies coded as generic roles.

All staff groups, with the exception of Estates Services, Medical & Dental and Registered Nursing & Midwifery, reported an increase in vacancy rates within the last year. The Nursing & Midwifery Support staff group reported the largest increase in vacancy rates in the last year, from 11.6% (30 June 2025) to 13.3% (30 June 2026).

Table 3 below presents the vacancy rates at 30 June 2026 in some sub staff groups and professions.

Table 3: HSCNI Vacancy Rate, by Sub Staff Group / Profession, 30 June 2026

Sub Staff Group / Profession	Vacancy Rate
Allied Health Professionals *	6.4%
Consultants	7.8%
Nursing & Midwifery Support	13.3%
Registered Midwives †	5.3%
Registered Nurses	5.7%
SAS Doctors (Specialist or Specialty Doctor)	6.5%
Social Care (including domiciliary care)	12.9%
Social Workers	6.0%

* Includes physiotherapists, occupational therapists, speech & language therapists, podiatrists, dietitians, orthoptists, radiographers (who are all part of the Professional & Technical staff group in Figure 4), and paramedics (who are part of the Ambulance group in Figure 4).

† Vacancy rate calculated based on staff in post figures which contain a small number of HSC staff who were graded as student midwives.

Of the sub staff groups and professions listed in Table 3, Nursing & Midwifery Support had the highest vacancy rate (13.3%), followed by and Social Care (12.9%). Registered Midwives had the lowest vacancy rate (5.3%) of the sub staff groups and professions listed.

Regional HSC Trust

Figure 5 below shows the number of vacancies actively being recruited in each regional HSC Trust at 30 June over the last five years.

The Belfast HSC Trust had the highest number of vacancies actively being recruited at 30 June 2026 (1,914), an increase of 136 vacancies since 30 June 2025.

All regional HSC Trusts, with the exception of South Eastern HSC Trust, reported an increase in vacancies between 30 June 2025 and 30 June 2026, with the largest annual percentage increase in the Western HSC Trust (21.2%), followed by Southern (12.0%), Northern (9.1%) and Belfast (7.6%). The South Eastern HSC Trust reported a decrease of 7.6% in vacancies actively being recruited in the last year.

Between 30 June 2021 and 30 June 2026, the number of vacancies actively being recruited decreased in all regional HSC Trusts, with the exception of Western HSC Trust. During this period, the largest percentage decrease was reported by the South Eastern HSC Trust (25.2%), followed by Southern (12.7%), Belfast (6.7%) and Northern (3.0%). The Western HSC Trust reported an increase of 6.6% in vacancies actively being recruited in the last five years.

Figure 5: HSCNI Vacancies Actively Being Recruited by Regional HSC Trust, 30 June 2021 – 30 June 2026

% Change					
2021-26	-6.7%	-3.0%	-25.2%	-12.7%	+6.6%
2025-26	+7.6%	+9.1%	-7.6%	+12.0%	+21.2%

Other HSC Organisations

Figure 6 below shows the number of vacancies actively being recruited at 30 June 2026 in each of the other HSC organisations. At 30 June 2026, the Business Services Organisation (BSO) had the highest number of vacancies actively being recruited (107), 60 (35.9%) less when compared with the position last year and 194 (64.5%) less than the position five years ago.

Figure 6: HSCNI Vacancies Actively Being Recruited by Other HSC Organisation, 30 June 2026 and Change Over Time[∞]

		% Change	
		2021-26	2025-26
Business Services Organisation	107	-64.5%	-35.9%
NI Ambulance Service ~	49	+16.7%	-24.6%
Strategic Planning & Performance Group	27	-52.6%	-34.1%
Public Health Agency	19	-77.4%	+11.8%
NI Blood Transfusion Service	19	+111.1%	+111.1%
Children's Court Guardian Agency for NI ^	9	+350.0%	+800.0%
Regulation & Quality Improvement Authority	4	-20.0%	-55.6%
NI Medical & Dental Training Agency	3	+50.0%	-40.0%
NI Social Care Council	3	+50.0%	+200.0%
Patient Client Council	2	-71.4%	-
NI Practice & Education Council	1	-	-

[∞] While some of the percentage changes detailed in Figure 6 are large, the number of vacancies involved are mostly small.

~ New posts have been created in NIAS for graduates from the BSc Paramedic programme.

^ Formerly known as the Northern Ireland Guardian Ad Litem Agency (NIGALA).

Pay Band

Figure 7 below shows the breakdown of HSCNI vacancies actively being recruited at 30 June 2026 by Agenda for Change (AfC) pay band group.

At 30 June 2026, almost half (44.4%) of all vacancies actively being recruited in HSCNI were at AfC pay bands 2-4, 20.6% at AfC pay band 5, 15.7% at AfC pay band 6, 8.6% at AfC pay band 7, 4.0% at AfC pay bands 8 & above, and 6.6% at non-AfC grades.

Figure 7: HSCNI Vacancies by AfC Pay Band Group, 30 June 2026

Table 4 below presents the percentage breakdown of vacancies actively being recruited in each staff group by pay band groups.

Note 2: Former HSC Board staff have undertaken their functions from 1 April 2022 as part of the Department of Health's newly formed Strategic Planning and Performance Group (SPPG). For consistency purposes, vacancies actively being recruited in SPPG are included in these data tables, and noted as SPPG.

Note 3: The Children's Court Guardian Agency for Northern Ireland (CCGANI) was formerly known as the Northern Ireland Guardian Ad Litem Agency (NIGALA).

Notes

The data included in this bulletin represents the number of vacancies actively being recruited and does not indicate the whole time equivalent (WTE) for these positions. The data includes both permanent and temporary positions. These figures do not indicate a measure of posts that are unfilled by permanent or fixed-term staff, and do not include posts not actively being recruited to at the specific point in time, including those outside the bounds of the definition e.g. those that have not reached recruitment stage yet.

Due to fluctuations in the data, caution should be taken when considering point-in-time comparisons.

These figures have not been assessed for seasonal adjustment and have not been seasonally adjusted.

The information presented in this bulletin is based on data obtained from Recruitment Shared Services within the Business Support Organisation (BSO), and from the HSC Organisations listed below:

Belfast HSC Trust
Northern HSC Trust
South Eastern HSC Trust
Southern HSC Trust
Western HSC Trust
Northern Ireland Ambulance Service
Northern Ireland Blood Transfusion Service

Former HSC Board staff have undertaken their functions from 1 April 2022 as part of the Department of Health's newly formed Strategic Planning and Performance Group (SPPG). For consistency purposes, vacancies actively being recruited in SPPG are included in this bulletin, and noted as SPPG.

The Northern Ireland Guardian Ad Litem Agency (NIGALA) has been renamed to the Children's Court Guardian Agency for Northern Ireland. This change is effective from 6th March 2023.

Definitions

Active Recruitment Vacancy: A vacancy is any position that is currently with the recruitment team and being actively recruited to. This will include those going through pre-employment checks, up to the point of a start date being agreed. Once a start date has been agreed with both parties (i.e. manager and applicant) this will no longer be classed as a vacancy. Vacancies that are on hold by managers are not included.

Active Recruitment Vacancy Rate: The number of active vacancies as a proportion of all posts (see formula below).

$$\text{Active Recruitment Vacancy Rate} = \frac{\text{Vacancies actively being recruited}}{\text{Active staff in posts}^* + \text{vacancies actively being recruited}}$$

** Includes HSC domiciliary care active staff in posts. This will not match with active staff in post figures published in the HSC Quarterly Workforce Statistics bulletin which excludes domiciliary care active staff in posts.*

HSC: Umbrella term for all Health and Social Care NI Organisations

Quality Assessment

Relevance

This publication provides a summary of HSC vacancies actively being recruited by broad staff groups and HSC organisation. The publication also includes HSC active recruitment trends. The publication meets the needs of users in terms of trends in active recruitment increases or decreases and the volume of active recruitment in staff groupings.

Accuracy and Reliability

The data is sourced from the recording of each HSC organisation's requisition requests on the HSC e-recruit system. Each HSC organisation is responsible for the data in their requisition requests. Regular reporting and sharing of trends helps the data quality discussion. Figures are an accurate summary of recruitment data at a point in time, as per the definition detailed in the publication. Due to the processing time of a vacancy through the HSC e-recruit system, this may have an impact on figures, causing delays in data peaks and troughs.

Once the figures are prepared for publication in excel format, internal quality assurance is carried out by Information and Analysis Directorate (IAD). The report is drafted and the figures in tabular and chart form are inserted into the report; at this point, further internal quality assurance is carried out by IAD to ensure the report matches the excel file.

Validation

IAD do not have the ability to verify aggregate data returns. However some general quality checks for missing data, changes and trends are monitored, any anomalies are checked and can be followed up as appropriate with HSC organisations or the regional recruitment group.

Error

HSC organisations are responsible for their own data and occasionally variance in recording practices can result in inconsistent data patterns across the region. The system is primarily designed for the recruiting of staff, and whilst recruitment (advert) specifications will be accurate, reporting capabilities are sometimes limited and rely on the accurate coding and categorisation of data for analytical purposes.

Revisions

IAD is committed to clarity around data revisions. As soon as possible after IAD ascertain that a correction to published data is necessary, all electronic documents containing the affected statistics on the DoH website will be updated and clearly marked with caveats and footnotes to detail any amendments. If the correction to the published data is minor, the necessary changes will be made by IAD without an announcement.

Timeliness and Punctuality

IAD request this data from HSC organisations on a quarterly basis using a defined data template. A data definition of HSC active vacancies in recruitment was agreed with the regional HSC recruitment leads.

Data is requested from Recruitment Shared Services within BSO and other HSC Trusts/organisations within 1 week of quarter end. Data is usually returned to IAD within approximately 4 weeks, with publication of the data in this bulletin approximately 3 weeks later i.e. 8 weeks after quarter end.

Normal procedure is that twelve months advance notice of publications is given in the [IAD Statistical Releases Calendar](#) on the DoH website. In the majority of cases, the target publication deadlines are met. However, in the event of a change to a pre-announced release date, the delay is announced, explained and updated regularly.

Accessibility and Clarity

The PDF report is accessible on the DoH Internet site via the Statistics section provided by Information and Analysis Directorate, and can be found under [staff vacancies](#).

The PDF report is published alongside MS Excel and CSV versions of data tables. The 24 hour pre-release list is published also. The report is not yet fully accessible for those using assistive technology.

Coherence and Comparability

IAD are not aware of other published data sources of active recruitment data based on the regionally agreed definition detailed in the publication. HSC organisations are of course able to produce their own analysis of their own organisation only.

The data categories as presented in the report are comparable each quarter. Where data categorisation changes, this is noted.

Trade-offs between Output Quality Components

None

Assessment of User Needs and Perceptions

The publications are primarily used by those linked to health services and we take on board any feedback given. We sometimes get requests for lower level data than is published however prior experience of collating too much data (that was frequently unused) has influenced the current template of published information. Where the case for a particular breakdown is presented, it is considered and actioned where found appropriate. Some criticism is received from those that think we should be working to a different definition of vacancies, however for consistency and given the steer from recruitment leads on the definition, we have kept the collection as posts actively being recruited to. If any other outputs were to be developed, they would have to be presented as a different publication.

The publication will be used for a range of purposes by researchers and other users such as the NI Assembly and the DoH. IAD will ensure that the publication remains relevant to users' needs by taking on comments and feedback regularly.

User feedback is invited in this publication. Readers are provided with contact details for the relevant statistician. We gain awareness of users of our data from ad hoc requests for information.

Performance, Cost and Respondent Burden

The publication represents a secondary use of the data and therefore adds no additional burden on health service organisations. The data are obtained from administrative systems within Northern Ireland.

Confidentiality, Transparency and Security

Aggregate data is supplied on HSC active recruitment by staff group and AfC pay level group where applicable.

Data obtained from Recruitment Shared Services and HSC Trusts/organisations does contain some personal information but only aggregate information is published.

The Code of Practice for Statistics is adhered to from data collection to publishing.

DoH's 'Statistical Policy Statement on Confidentiality' can be found in the [Statistics Charter](#).
