

DUTY OF CANDOUR & BEING OPEN – DRAFT POLICY PROPOSALS FOR CONSULTATION

Summary

In January 2018, Justice John O’Hara published his report on the Inquiry into Hyponatraemia-Related Deaths (IHRD). His first recommendation was that a statutory Duty of Candour should be enacted in Northern Ireland and that it should apply to Healthcare Organisations and everyone working for them. Justice O’Hara also recommended that criminal liability should attach to breach of this duty and to obstruction of another in the performance of this duty. He made further recommendations about the guidance, support and protection that should be provided for staff in order to create a more open culture.

In response, the Department of Health (DoH) established an Implementation Programme to take forward the recommendations arising from the Inquiry and the Duty of Candour Workstream, and its Being Open subgroup, have been responsible for developing the proposal options to address the recommendations on candour.

Through a co-production process, the Workstream and Subgroup have developed policy options for the statutory Duty of Candour and the policy framework for Being Open guidance, taking account of: research commissioned and evidence submitted; feedback from staff and service users; and input from other key stakeholders.

The DoH is now seeking your views on the following proposals developed by the Workstream and Subgroup:

- a. Policy options for the statutory organisational Duty of Candour; and
- b. Policy options for the statutory individual Duty of Candour; and
- c. The policy framework for Being Open guidance.

A detailed summary of these proposals is available [here](#) on the DoH website.
