Dear Colleagues

NICE Clinical Guideline CG 32 - Nutrition support for adults: oral nutrition support, enteral tube feeding and parenteral nutrition https://www.nice.org.uk/guidance/cg32

The Department has recently reviewed the above NICE guidance and has formally endorsed it as applicable in Northern Ireland. This Clinical Guideline was published by NICE in February 2006 prior to the Department’s link to the Institute. It has been reviewed for applicability now due to its relationship to NG36 endorsed by the Department in April 2016.

In accordance with the process outlined in circular HSC (SQSD) 3/13, the following actions should be taken (https://www.health-ni.gov.uk/sites/default/files/publications/dhssps/hsc-sqsd-3-13.pdf)

1. HSC Board / PHA
   a. Identify a Professional Lead who will consider the commissioning implications of the Clinical Guideline and co-ordinate with any other relevant commissioning teams. This Lead will identify any areas where regional planning / investment / commissioning are required, or where there is material risk to safety or quality. These will then be actioned immediately through normal commissioning arrangements or through bespoke arrangements reflecting the nature of the issue / risk.
   b. Ensure that relevant guidance is sent to the appropriate Family Practitioners.
   c. Seek positive assurance from the HSC Trusts that the required initial actions have been undertaken within a 3 month period, and that the Guideline has been implemented within a further 9 months (unless otherwise notified by the HSC Trusts).
   d. Where significant investment/ commissioning needs cannot be met within the usual timeframe, agree appropriate arrangements with HSC Trusts. Report to DHSSPS as required at 6 monthly accountability meetings.

2. HSC Trusts
   a. Proceed with targeted dissemination, agree a clinical/management lead to coordinate implementation and consider what has to be done to achieve implementation using a risk based assessment and baseline review as appropriate to support planning. These initial actions should be undertaken within a three month period.
   b. Implement the Guideline within a further 9 months (apart from any elements where significant issues have been raised with the HSC Board/PHA).
   c. Provide positive assurances to the HSC Board that required initial actions have been taken within the 3 month planning period and that the Guideline has been implemented within a further 9 months, where appropriate.
   d. Where significant investment/ commissioning needs cannot be met within the usual timeframe, notify the HSC Board/PHA at the earliest opportunity through the bi-monthly director level meetings and agree appropriate arrangements with them to achieve implementation.

3. RQIA
   a. Disseminate the Guideline to the independent sector as appropriate.

4. HSC Special Agencies and NDPBs
   a. Take account of this Guideline in training and other developments as appropriate.
To inform the planning process, please find attached details from the Departmental review. You should consider and take account of other relevant Departmental policies and strategies in your planning, as well as any legislative / policy caveats identified in the course of the Departmental review.

Dr Paddy Woods
Deputy Chief Medical Officer
Appendix 1

Endorsed NICE guidance - Details from Departmental review

| Reference Number | NICE Clinical Guideline - CG32  
| --- | -----------------  
|  | https://www.nice.org.uk/guidance/cg32  
| **Title** | Nutrition support for adults: oral nutrition support, enteral tube feeding and parenteral nutrition  
| **Summary of guidance** | The NICE guideline on nutrition support in adults covers the care of patients with malnutrition or at risk of malnutrition, whether they are in hospital or at home. It doesn't cover malnutrition or its treatments in detail.  
|  | It includes recommendations on:  
|  | • Organisation of nutrition support in hospital and the community  
|  | • Screening for malnutrition and the risk of malnutrition in hospital and the community

<tbody>
<tr>
<td>Where this guidance makes reference to NICE Clinical Guideline CG2 on Infection Control, you should refer to NICE Clinical Guideline CG139 endorsed by the Department in July 2012 <a href="https://www.health-ni.gov.uk/articles/nice-endorsed-clinical-guidelines-20122013">https://www.health-ni.gov.uk/articles/nice-endorsed-clinical-guidelines-20122013</a></td>
</tr>
<tr>
<td>This advice does not override or replace the individual responsibility of health professionals to make appropriate decisions in the circumstances of their individual patients, in consultation with the patient and/or guardian or carer. This would, for example, include situations where individual patients have other conditions or complications that need to be taken into account in determining whether the NICE guidance is fully appropriate in their case.</td>
</tr>
<tr>
<td>The Mental Capacity Act 2005 and the Department of Health document ‘Reference Guide to Consent for Treatment or Examination’ do not apply in NI, but work is under way to bring forward similar legislation for NI, incorporating mental capacity and mental health provisions. The DHSSPS guidance ‘Reference Guide to Consent for Examination, Treatment or Care (2003)’, which is available on the DHSSPS website, gives advice on determining whether a person has capacity and on what action may be taken where the person lacks capacity. Available from: <a href="https://www.health-ni.gov.uk/articles/consent-examination-treatment-or-care">https://www.health-ni.gov.uk/articles/consent-examination-treatment-or-care</a></td>
