Part 1. Policy scoping

1.1 Information about the policy

Name of the policy:

NICE Technology Appraisal TA742 - Selpercatinib for treating advanced thyroid cancer with RET alterations

Is this an existing, revised or a new policy?

New

What is it trying to achieve? (intended aims/outcomes)

This guidance provides evidence-based recommendations on selpercatinib (Retsevmo) for advanced thyroid cancer with RET alterations in people 12 years and older.

Selpercatinib is recommended for use within the Cancer Drugs Fund, as an option for treating:

- advanced RET fusion-positive thyroid cancer in adults who need systemic therapy after sorafenib or lenvatinib
- advanced RET-mutant medullary thyroid cancer in people 12 years and older who need systemic therapy after cabozantinib or vandetanib.

It is recommended only if the conditions in the managed access agreement are followed.

Are there any Section 75 categories which might be expected to benefit from the intended policy?

If so, explain how.

This guidance should benefit people 12 years and older as an option for treating advanced thyroid cancer with RET alterations.

Who initiated or wrote the policy?

National Institute for Health and Care Excellence (NICE)

Who owns and who implements the policy?

NICE owns the policy. The Department determines whether the policy should be endorsed for Northern Ireland, and, if endorsed, the HSCB / HSC Trusts implement it.

1.2 Implementation factors

Are there any factors which could contribute to/detract from the intended aim/outcome of the policy/decision?

N/A

1.3 Main stakeholders affected

Who are the internal and external stakeholders (actual or potential) that the policy will impact upon? (please delete as appropriate)

staff

service users

other public sector organisations

voluntary/community/trade unions

other, please specify __ Families/Carers_____

1.4 Other policies with a bearing on this policy

- who owns them? N/A

1.5 Available evidence

What evidence/information (both qualitative and quantitative¹) have you gathered to inform this policy? Specify details for each of the Section 75 categories.

In developing this guidance, NICE have assessed its equality impact in scoping, consulting and before issuing the final guideline. This process is designed to mitigate the impact on equality. In addition, DoH locally consult on equality and human rights issues.

Religious belief evidence / information:

Religion will have no bearing on the guidance

Political Opinion evidence / information:

Political opinion will have no bearing on the guidance

Racial Group evidence / information:

Age evidence / information:

During the scoping process it was identified that there are barriers to access (and extremely limited treatment options) for people under the age of 18 who have these types of thyroid cancer. Clinical and patient experts at the scoping workshop raised the potential for both of the indications to incorporate people under the age of 18. The committee recognised that only the marketing authorisation for advanced RET-mutant medullary thyroid cancer (MTC) allows for treatment of young people age 12 and above.

¹ * Qualitative data – refers to the experiences of individuals related in their own terms, and based on their own experiences and attitudes. Qualitative data is often used to complement quantitative data to determine why policies are successful or unsuccessful and the reasons for this.

Quantitative data - refers to numbers (that is, quantities), typically derived from either a population in general or samples of that population. This information is often analysed either using descriptive statistics (which summarise patterns), or inferential statistics (which are used to infer from a sample about the wider population).

This guidance is aimed at people 12 years and older as an option for treating advanced thyroid cancer with RET alterations.

3.4 Mitigation

When the public authority concludes that the likely impact is 'minor' and an equality impact assessment is not to be conducted, the public authority may consider mitigation to lessen the severity of any equality impact, or the introduction of an alternative policy to better promote equality of opportunity or good relations.

Can the policy/decision be amended or changed or an alternative policy introduced to better promote equality of opportunity and/or good relations?

No

If so, give the reasons to support your decision, together with the proposed changes/amendments or alternative policy.

3.5 Timetabling and prioritising

Factors to be considered in timetabling and prioritising policies for equality impact assessment.

If the policy has been '**screened in**' for equality impact assessment, then please answer the following questions to determine its priority for timetabling the equality impact assessment.

On a scale of 1-3, with 1 being the lowest priority and 3 being the highest, assess the policy in terms of its priority for equality impact assessment.

Effect on equality of opportunity and good relations – **Rating** ____ (1-3)

Social need – **Rating** ____ (1-3)

Effect on people's daily lives – **Rating** ____ (1-3)

Relevance to a public authority's functions – **Rating** ____ (1-3)

Note: The Total Rating Score should be used to prioritise the policy in rank order with other policies screened in for equality impact assessment. This list of priorities will assist the public authority in timetabling. Details of the Public Authority's Equality Impact Assessment Timetable should be included in the quarterly Screening Report.

Is the policy affected by timetables established by other relevant public authorities?

N/A

If yes, please provide details.

Part 4. Monitoring

Monitoring is an important part of policy development and implementation. Through monitoring it is possible to assess the impacts of the policy / decision both beneficial and adverse.

4.1 Please detail how you will monitor the effect of the policy / decision?

To provide further assurance regarding implementation, the Regulation Quality Improvement Authority (RQIA) will extend its support of regional audits to cover some clinically based NICE guidance and will look at a sample of the technology appraisals each year.

4.2 What data will you collect in the future in order to monitor the effect of the policy / decision?

N/A

Please note: - *For the purposes of the annual progress report to the Equality Commission you may later be asked about the monitoring you have done in relation to this policy and whether that has identified any Equality issues.*
